AJAY CARPENTER

DATA ANALYST

+919340214793 | 9340214793ajay@gmail.com |www.linkedin.com/in/ajay-carpenter17

Summary

Data Analyst skilled in **SQL, Python, Power BI, and Excel** with experience building data dashboards, performing exploratory data analysis, and applying machine learning models for customer insights. Passionate about transforming raw data into actionable business decisions.

Technical Skills

Data Analysis: SQL (Joins, Subqueries), Exploratory Data Analysis (EDA), Data Cleaning
Programming: Python (Pandas, NumPy)
Visualization: Power BI (DAX, Data Modeling)
Tools: Excel (Pivot Tables, Advanced Functions), Git, MySQL, Generative AI / LLMs – Prompting, APIs
Machine Learning: Regression, Classification, K-Means Clustering

Projects

SALES DASHBOARD (POWER BI)

- Built a dynamic Power BI dashboard using DAX measures.
- Analyzed 50K+ sales records, product performance, and regional growth insights.

CUSTOMER SEGMENTATION (PYTHON + ML)

- Performed EDA and feature engineering using Pandas.
- Built clustering models (K-means) to segment customers and identify patterns.

AI CHAT AUTOMATION (GENERATIVE AI)

- Developed a chatbot using the Gemini API for prompt-based responses.
- Integrated Python + Flask backend with a minimal UI.
- Automated customer query handling using LLM-generated insights

Certifications

- POWER BI WORKSHOP — OFFICEMASTER (SEPT 2025)
  Completed a verified Power BI workshop covering dashboard creation, data modelling, and visualization fundamentals.
- POWER BI WORKSHOP — SWS, COLLEGE EVENT
  Participated in a hands-on Power BI workshop with real data workflow exposure. Demonstrated strong analytical and visualization skills through project-based tasks.

Education

Sagar Institute of Research and Technology, Bhopal — Aug 2023 –May 2027

Bachelors of technology in Artificial Intelligence and Data Science
